1	S. M. and J. M. O'Brien Family Trust S01/1	Policy HH-P11; Rule HH-R28	Oppose	<p>Proposed wording of Policy HH-P11 is too limited and does not provide for the consideration of the relocation of heritage items to be balanced against other relevant resource management issues. The policy has poor alignment with other (existing and unaltered) policies (e.g. HH-P7). Policy HH-P11 would take primacy over Policy HH-P7 and would apply new, more onerous /restrictive provisions to the relocation of buildings than would apply to the full demolition of a heritage building. HH-P11 also restricts the application of HH-P7 as relocation of the item may no longer be viewed as a 'reasonably practicable option' because of the directive nature of HH-P11. The wording of 'imminent danger to natural hazards' is too limited, it does not allow applicants to consider natural hazards that are likely to cause future danger (such as flood plains).</p> <p><i>Opposed by Further Submission FS01/01 (Heritage New Zealand Pouhere Taonga)</i></p>	Not specified, but submission outlines opposition to Policy HH-11 as it has poor alignment with other policies such as HH-P7 and is considered to be too limited.	<p>Recommend to accept the submission in part.</p> <p>The intention of HH-P11 is not to provide an easier pathway for demolition over relocation. On reflection the wording of clause c) is more onerous than intended for the applicant to prove that relocation is the only option, which might lead to demolition being a more favourable option. Amendments are recommended to make the policy clearer, recognising that relocation is preferred over demolition, ensuring that the protection of heritage values is considered throughout the policy, and recognising issues associated with a threat of, or damage from natural hazards (which is wider than 'imminent danger').</p> <p>A prehearing meeting was held with the submitter's agent where their concerns with the policy were discussed. Amendments to the policy were then provided to the agent for comment, including to clarify that relocation is preferred over demolition, and to recognise threats of, as well as danger from a natural hazard.</p> <p>At the prehearing meeting, the submitter's agent also requested clarity on the consideration of settings and a guidance note is recommended to clarify that the heritage values focus on the built heritage item, not</p>

						<p>the setting of the heritage items. This is an important distinction.</p> <p>HNZPT (through a separate prehearing meeting) and Ian Bowman support the recommended revised policy.</p> <p>Recommend to change HH-P11 as follows:</p> <p>“HH-P11 To restrict the relocation of a heritage item in Schedule 4b except where it can be demonstrated that: <u>To only allow relocation of heritage items listed in Schedule 4b where it can be demonstrated that:</u></p> <ol style="list-style-type: none"> a. The work <u>relocation</u> is necessary to save the heritage item and <u>protect the heritage values from the threat of, or damage from imminent danger to</u> natural hazards; or b. The work <u>relocation</u> will protect the heritage values and significance of the heritage item identified in Schedule 4b, and c. In the case of relocation to another site, <u>alternatives to relocation have been explored and relocation is considered a comprehensive alternatives assessment has been completed by a suitably qualified heritage expert and relocation is demonstrated to be the only practicable option.</u> <u>to be a</u>

2	Ministry of Education S02/1	Heritage Schedule 4b	Neutral	The six schools listed in the submission are designated by the Ministry of Education. The schools and the Ministry value the heritage item on each site. An education designation will prevail over any rules or listing of heritage items in the Plan (s176, RMA). The Ministry acknowledges the purpose of PC H(a), however the Ministry has a requirement to provide education spaces that can respond to roll changes. Schools value and are interested in protecting heritage items and generally will provide for growth/educational spaces whilst trying to protect these features.	Not provided.	Recommend to accept the submission. Acknowledge that the school sites are designated and changes to those sites require outline plan processes rather than consent applications. Those heritage items within school sites are valued and provide for growth / educational spaces.
3	Heritage New Zealand Pouhere Taonga (HNZPT) S03/1	Definition of Attachment	Support	Supports the definition of attachment in relation to heritage items listed in Schedule 4b.	Retain definition of Attachment.	Recommend to accept the submission. Support for the definition is noted. Retain definition of 'Attachment'.
4	Heritage New Zealand Pouhere Taonga S03/2	Definition of Non-contributing building	Oppose	Concerned that parts of the building which may not be 'original', but still have high heritage value, could be interpreted as 'non-contributing' and therefore might be removed or adversely altered. Refers to the ICOMOS New Zealand Charter which encourages the	Delete definition. Where it is clearly documented in the heritage inventory, amend the heritage schedule to specifically exclude non-contributing parts of the building. This can be recorded in the 'extent of protection' column of schedule 4b.	Recommend to accept the submission in part. As outlined in the body of my evidence, the current definition could be made clearer so that additions that have occurred over time which carry similar or different values but which still contribute to the heritage values do not fall within the definition.

				<p>valuing of differing periods of a building's history. Clear 'non-contributing' parts of a building can be identified specifically in the District Plan schedule. Where there is a situation that part of a building may have a lesser degree of heritage value than the main/original part, proposed alterations can be assessed as part of a resource consent process.</p> <p>This can be assisted by the introduction of a policy encouraging the removal of non-contributing parts of a scheduled heritage building.</p>		<p>The heritage assessments completed for this plan change can not be used to record the extent of non-contributing buildings as sought by the submitter.</p> <p>Recommend to delete the notified definition and insert a new definition as follows (note an amendment to the definition heading is also recommended through S04/9):</p> <p style="padding-left: 40px;">Non-contributing <u>parts of heritage</u> buildings:</p> <p style="padding-left: 40px;">Non contributing building: For heritage items listed in Schedule 4b, non-contributing parts of a heritage building are those parts of a building which may have been added to the main heritage building at a later time than original construction of the main building and are not constructed in the same style, finishes or materials as the original building, and includes lean-to's.</p> <p style="padding-left: 40px;"><u>Means parts of heritage items that make little or no contribution to, or detract from, the heritage values for which the heritage item has been listed in Schedule 4b.</u></p>

6	Heritage New Zealand Pouhere Taonga S03/4	HH-P1 Cultural values	Support	Reference to the New Zealand Heritage List / Rārangi Kōrero in this policy.	Retain policy.	Recommend to accept the submission. Support to include reference to the New Zealand Heritage List / Rārangi Kōrero in HH-P1 is noted. Retain HH-P1 as notified.
7	Heritage New Zealand Pouhere Taonga S03/5	HH-P10	Support	Supports the differentiation of contributing and non-contributing parts of a heritage building, however the distinction of contributing and non-contributing needs to be clear and unambiguous. Suggests introduction of a policy encouraging the removal of non-contributing parts of a scheduled heritage building (refer S03/2).	Retain policy HH-P10.	Recommend to accept the submission in part. Support of HH-P10 is noted. Retain HH-P10 subject to amendment to encourage removal of non-contributing parts of heritage buildings as follows: Insert new wording to HH-P10 as follows: “ HH-P10 To enable external alterations to, <u>or the removal of</u> non-contributing parts of heritage buildings listed in Schedule 4b where the changes do not impact negatively on the heritage values of the item listed in Schedule 4b.” A consequential change is also recommended to HH-R11 to make the rule consistent with the policy as follows: “ HH-R11 External alterations to, <u>or the removal of</u> non-contributing parts of a heritage building listed in Schedule 4b.”

8	Heritage New Zealand Pouhere Taonga S03/6	HH-P11	Support	Supports policy to restrict the relocation of heritage items. This policy aligns with HNZPT Guide to the Management of Historic Heritage: District Plans (April 2022).	Retain policy as notified.	Recommend to accept the submission in part. As outlined in the discussion under submission S01/1 changes are recommended to HH-P11. These changes will make the provisions clearer to use and remove the unintended consequence that demolition could be favoured over relocation. This amended policy was discussed with HNZPT at the prehearing and support for the revised HH-P11 was given.
9	Heritage New Zealand Pouhere Taonga S03/7	Explanation (after HH-P11)	Support (partial)	In general supports explanation. However, the explanation does not directly relate to HH-P11, it would be more appropriately located in the District Plan after HH-P1, or as part of the introduction to the heritage chapter.	Retain explanation but locate in a more appropriate place in the heritage chapter.	Recommend to accept the submission. This explanation refers to the overall approach to historic heritage in the District Plan and was located at the bottom of the last historic heritage policy that has been reviewed. However, this explanation can be moved to a more appropriate location (at the bottom of the introduction to the chapter). Note this location may change under the new chapter structure as part of the National Planning Standards (NPStds). Recommend that the explanation after HH-P11 be moved to the bottom of the Introduction to the chapter.
10	Heritage New Zealand Pouhere Taonga S03/8	Explanation (after HH-P15)	Support	Supports the amendments to this explanation.	Retain explanation.	Recommend to accept the submission. Support of the amendments to the explanation is noted.

						Recommend to retain the amendments to the explanation.
11	Heritage New Zealand Pouhere Taonga S03/9	HH-R4	Oppose (partial)	Supports HH-R4, but in line with other submission points, the rule should be amended to refer to HH-S1.	Amend HH-R4 to: " <u>Where compliance with HH-S1 is not achieved. Activity status: Restricted Discretionary. Matters of discretion: Degree of non-compliance with the particular performance standards that the proposed works fails to meet in relation to the relevant heritage values listed in Schedule 4b.</u> "	<p>Recommend to reject the submission.</p> <p>HH-R4 has not been changed as a result of PCH(a) and therefore this request is considered to be outside the scope of the Plan Change.</p> <p>Activities that don't meet the performance standards for Schedule 4a heritage items default to Rule HH-24 or Rule HH-36, while the default for Schedule 4b items is HH-R16. No changes are considered necessary to these rules.</p>
12	Heritage New Zealand Pouhere Taonga S03/10	HH-R6	Support	Supports the amendment to HH-R6.	Retain rule.	<p>Recommend to accept the submission.</p> <p>Support of the amendments is noted.</p> <p>Recommend to retain HH-R6 as notified.</p>
13	Heritage New Zealand Pouhere Taonga S03/11	HH-R7	Oppose (partial)	Supports HH-R7 but in line with other submission points, the rule should be amended to refer to HH-S3	Amend HH-R7 to: " <u>Where compliance with HH-S3 is not achieved. 14	Heritage New Zealand Pouhere Taonga S03/12	HH-R9	Support	Supports this rule providing for minor external alterations to heritage items.	Retain rule.	Recommend to accept the submission as notified. Support noted for HH-R9. Recommend to retain HH-R9 as notified.
15	Heritage New Zealand Pouhere Taonga S03/13	HH-R10	Support	Supports this rule, subject to the restrictions and recommended amendments in HH-S5.	Retain rule as notified.	Recommend to accept the submission in part in so far as the support for HH-R10. Support noted for HH-R10. Refer to comments in S03/24 below regarding HH-S5 amendments which are rejected on the grounds of being out of scope of the Plan Change.
16	Heritage New Zealand Pouhere Taonga S03/14	HH-R11	Support	Supports this rule, subject to the comments made in the submission point on the definition of non-contributing buildings. This rule may still be appropriate; however in the absence of a definition it would apply to non-contributing parts specifically identified in the schedule. In addition, the matters referred to in HH-R16 should be integrated into this rule.	Retain rule, subject to recommended changes, including the following: " <u>Where compliance with HH-S6 is not achieved. Activity status: restricted Discretionary. Matters of discretion: Degree of non-compliance with the particular performance standards that the proposed works fails to meet in relation to the relevant heritage values listed in Schedule 4b.</u> "	Recommend to accept the submission in part in so far as the support for HH-R11. Acknowledge support to HH-R11. Rule HH-R14 already provides for activities where the permitted activity rule is not achieved. No changes to HH-R14 are considered necessary, therefore the part of the submission to change the rules is rejected. A consequential change is recommended to HH-R11 to make consistent with HH-P10 (see S03/5). Recommend to retain HH-R11 subject to the following amendment, noting the recommended change to the definition for

18	Heritage New Zealand Pouhere Taonga S03/16	HH-R15	Support	Supports this rule providing for relocation on the same site of heritage item listed in Schedule 4(b) as a restricted discretionary activity.	Retain rule.	<p>Recommend to accept the submission.</p> <p>Support to HH-R15 noted.</p> <p>Recommend to retain HH-R15 as notified.</p>
19	Heritage New Zealand Pouhere Taonga S03/17	HH-R16	Oppose (partial)	Supports the intent of HH-R16. However, this rule would be better integrated with other rules for which HH-S1, HH-S3 and HH-S6 are relevant (HH-R4, HH-R7 and HH-R11).	Delete rule (HH-R16), but integrate provisions into HH-R4, HH-R7 and HH-R11.	<p>Recommend to reject the submission.</p> <p>Support of the intent for HH-R16 is noted.</p> <p>HH-R4 and HH-R7 are outside the scope of the plan change as they are relevant to Schedule 4a. HH-R16 has been drafted to differentiate the plan change amendments for Schedule 4b as restricted discretionary activities from the existing provisions for Schedule 4a (which are out of scope of this plan change).</p> <p>As part of a pre-hearing meeting held with HNZPT, clarification was sought on</p>

Retain rule.	<p>Recommend to accept the submission.</p> <p>Support is noted but consideration of HH-R24 is outside the of scope of plan change. 25	Heritage New Zealand Pouhere Taonga S03/23	HH-S2	Support	Supports this standard for when buildings need to be demolished due to fire, earthquake, or other disaster.	Retain standard as notified.	Recommend to accept the submission. Support noted for HH-S2. Recommend to retain HH-S2 as notified.
26	Heritage New Zealand Pouhere Taonga S03/24	HH-S5	Oppose (partial)	HH-S5 refers to Rules 3E.4.1 and 3E.4.2 relate to permitted activities. 3E.4.2 is the list of permitted activity standards, including that there be only one sign per site, and that the maximum sign size is 0.6m ² . While these standards are generally appropriate, additional standards should be introduced for signs on heritage buildings. It is important that signs on heritage buildings do not obscure significant architectural features, and are not attached in a way that damages the heritage fabric.	Include the following standard for signs on heritage buildings in Schedule 4a and 4b: " <u>Signs must not obscure significant architectural features, and must be attached to the building in a way that minimises damage to heritage fabric.</u> "	Recommend to reject the submission. Schedule 4a is out of scope of the plan change. Any change can only apply to Schedule 4b. Most items in Schedule 4b are private homes and war memorials, and the need for signage on these items is likely to be low. If a sign does not meet permitted activity standards (including more than one sign, 0.6m ² in size), a discretionary consent is required. Existing HH-P9 provides policy guidance for signs on heritage buildings as follows: <i>HH-P9 To ensure that any signage located on significant historic built heritage is of a size, location, colour and style that is compatible with the character of the heritage item and does not detract from, compete with or dominate the heritage values for which the heritage item is significant.</i>

						<p>Chapter 3E Signs also contains a relevant policy for assessing signs on heritage buildings as follows: <i>Policy 1.6 To ensure signage is in keeping with the character of the area or building where it is located.</i></p> <p>Following the pre-hearing meeting, HNZPT have confirmed support with the notified provisions for signs, given the plan change only relates to items outside of the Feilding Town Centre. The concerns raised relate predominately to commercial areas.</p> <p>Recommend to retain HH-S5 as notified.</p>
27	Heritage New Zealand Pouhere Taonga S03/25	HH-S6	Support	Supports that external alterations should not result in any change to the height and footprint of the non-contributing part of the building. However, as referred to in other submission points, there should be more clarity around the definition of a 'non-contributing' building.	Retain HH-S6.	<p>Recommend to accept the submission in part.</p> <p>The submission lodged by NZDF (S04/7) requests replacing the term “change” with “increase” in HH-S6. Mr Bowman has confirmed in his evidence (paragraph 23) that allowing a reduction in height or footprint of non-contributing parts of heritage buildings can reduce their negative effects and allows for restoration.</p> <p>On that basis changing HH-S6 to reference an increase in the height or footprint is recommended. This was discussed with HNZPT at the prehearing meeting and was supported.</p>

28	Heritage New Zealand Pouhere Taonga S03/26	Schedule 4b - reference to non-contributing parts of buildings	Oppose (partial)	<p>The schedule includes comments on levels of authenticity, including 'high', 'moderate' and 'low'. Some of the places with 'low' authenticity because of changes over time may need to have 'non-contributing' components specifically identified, either with a specific reference in the 'extent of protection' column, or by delineating the non-contributing parts on a plan or diagram. An example of where this may be appropriate is 'The Pines'.</p>	<p>Amend schedule 4b to include explicit identification of non-contributing parts of buildings, either by a specific description, or by delineating the non-contributing parts on a plan or diagram.</p>	<p>Recommend to reject the submission.</p> <p>The heritage reports completed to inform the plan change do not contain the detail as sought by the submitter.</p> <p>Just because a building has been identified as having low authenticity, doesn't mean that it has clearly identifiable non-contributing parts. The low authenticity ranking may be because of many changes to the architectural style over time, but not discernible 'add ons' that could be defined as "non-contributing", e.g. The Pines is identified as having low levels of authenticity as it is a mixture of architectural styles from alterations over the years.</p> <p>At the prehearing meeting with HNZPT it was agreed that no change was necessary to the Schedule in the way sought by the submitter. Rather a new guidance note should be added to Schedule 4b to make it clear that the heritage reports, which contain a lot of information, are available on request from Council. Over time it is envisaged that the reports will be available online.</p> <p>Recommend that a new guidance note is added to Schedule 4b as follows:</p>

36	New Zealand Defence Force S04/5	Rule HH-R11	Support	It is appropriate that minor external alterations to non-contributing parts of heritage buildings is provided for as a permitted activity, subject to compliance with standards.	Retain as notified. We note that the defined term 'non-contributing parts' should be in bold at all locations within the plan so the reader knows the term is defined.	Recommend to accept the submission in part noting recommended changes under submission S03/14. Support noted for HH-R11. Refer to amendments recommended in S03/14 to include reference to 'removal of' non-contributing parts of heritage buildings in HH-R11. The recommended change to HH-R11 will enable the removal of non-contributing parts of heritage buildings.

37	New Zealand Defence Force S04/6	Standard HH-S5	Support	<p>The proposed standard requires compliance with the existing permitted activity rule 3E.4.1 and standards 3E.4.2 within the operative District Plan. 38	New Zealand Defence Force S04/7	Standard HH-S6	Support with amendments	<p>The proposed standard is generally supported. However, as currently worded, no change in the height or footprint of non-contributing parts is permitted by the standard. Even a decrease in height or footprint would require a resource consent. We assume the intent is to prevent increases in height or footprint which could further visually detract from the heritage building. Therefore, we suggest the replacement of the word 'change' with 'increase'.</p> <p><i>Opposed by Further Submission Further Submission FS01/06</i></p>	<p>Amend Standard HH-S6 as follows: "<i>External Alterations to Non-Contributing Parts of Heritage Buildings in Schedule 4b must comply with the following standard: i. External alterations to non-contributing parts of a heritage building listed in Schedule 4b must not result in any change increase to the height and footprint of the non-contributing part of the building.</i></p>	<p>Recommend to accept the submission.</p> <p>Support noted for HH-S6. The intention of rule (HH-R11) and standard (HH-S6) is to manage changes to non-contributing parts of buildings where there is the potential for a change to impact negatively on the heritage values of the heritage item. As outlined by Ian Bowman in his evidence, a change that allows a reduction in height or footprint of a non-contributing part of a heritage building would unlikely impact on the heritage values and allows for restoration.</p> <p>An increase in height or footprint has the potential to impact on the heritage values of the main building and should be considered</p>

However, the clause proposed is a guidance note which states 'where it is safe to do so' and applies after emergency situations (fire, flooding, earthquake). The statement is not a rule but a guidance note so cannot include 'must'. The heritage rules only protect the external parts of heritage items, not internal parts. Every heritage report contains at least one photo of the heritage item and a number of reports contain several photos of each heritage item.</p> <p>Recommend to retain HH-S2 guidance note as notified.</p>
